

# Up Armored M113

## LVAS Hybrid Add-on Armor System

Capable to play a significant roll in Low Intensive Conflict (LIC) due to its good protection against RPG together with protections against IEDs.

- Up-armored M113 APC with improved survivability & maneuverability
- Hybrid armor protection against RPG-7, 14.5mm AP, artillery fragments & IEDs
- Modular add on armor system, easy to install and to remove
- Light reactive cassettes
- Low environmental influence on & around the vehicle
- Mature and reliable armor system
- Carrying 8-9 troops with full combat gear
- Optional systems
  - Air Condition
  - Steering wheel
  - Energy absorbing seats
  - Automatic fire extinguishing system
  - Remote control weapon station
- Can be implemented on variety of APCs
