

IMI Systems Ltd

Company Profile

Established in 1933 as Israel Military Industries Ltd¹, IMI Systems is a defense systems house fully owned by the State of Israel, specializing in the development, integration, manufacturing, and life cycle support of world class end-to-end combat-proven solutions for land, air, naval and Home Land Security (HLS) applications.

IMI Systems' state of the art artillery rocket systems, air to ground weapons, advanced tank and artillery ammunition, mobility systems & infantry solutions developed based on extensive combat and operational experience, high-end technology and exclusive methodologies aiming to meet the modern battlefield needs through proven, effective and affordable solutions.

80 years of experience in the defense market bestow IMI Systems' reputation as a preferred and highly appreciated defense systems manufacturer in the areas of:

- Various precision munitions
- Combat mobility
- Survivability and protection systems
- Armor solutions
- HLS and Crisis management

As a reliable source for a broad range of defense solutions, IMI Systems is a reputable IDF supplier and a trusted provider of military and government agencies in over 70 countries worldwide, including US Military (Air Force, Army and Navy) and NATO nations.

Positioned among the world's leader defense solution providers, IMI Systems employs over 3,000 skilled, highly qualified employees in 3 divisions, 6 business units and various productions, laboratories and test facilities and has two subsidiaries: Academy for Advanced Security & Anti-terror training and Ashot Ashkelon Ltd.

With a worldwide presence and strong partnerships and collaborations with defense and governmental organizations, IMI Systems conducts large-scale defense projects, including localization, technology and production know-how transfer, aiming to assist in the development of local industries and the manufacturing of future tailor made solutions.

IMI Systems' unique combination of capabilities enables its customers and business partners to enjoy the benefit of high standards, uncompromising quality solutions while facilitating their abilities to successfully cope with the demanding challenges of the future battlefield.

¹ Pursuant to the resolution of the Government of Israel dated 23.12.2013, with respect to the privatization of the operations and business activities of Israel Military Industries Ltd, and as an initial step to the Privatization, IMI had transferred on 1st January, 2016, its business activities, rights and obligations, to IMI Systems Ltd. – an Israeli company fully owned by the State of Israel, to be privatized at later stage.
